

Maitraghar : IPH Guest Home

Institute for Psychological Health (IPH) has been extremely active in imparting knowledge about various aspects of Mental Health, thus training mental health professionals across the state of Maharashtra & also from other parts of the country and abroad. 'Akalan' the learning centre of IPH has clocked ___ days of professional training in an calendar year with ___ modules & average participation of ___ participants per course. More than ___% participants come from locations out of Mumbai Metro area.

IPH also organizes training programs for community at large, including special groups ranging from teachers to corporate executives & from teenagers to Senior Citizens. Many of these require overnight stay in Thane.

Additionally, IPH has started receiving fair amount of observers who come and stay for an extended period of one to three months. They are young mental health professionals, viz. Psychiatrists, Psychologists, Counsellors.

All such aspiring learners from out of station who wish to attend our various professional courses had the main difficulty about staying overnight. Dr. Shubha Thatte, Trustee of IPH had graciously accommodated some of them in our earlier courses.

To have a permanent solution to this problem IPH has now developed a place which is very spacious & at a walking distance from IPH with easy access to Railway station as well as the Mumbai Thane Highway. Now you can plan to attend any of our courses without difficulty. Even participants staying in the far-off suburbs have to spend time, energy & money for travelling & reaching in time. This is a good alternative for them as well. Our time table for the courses from 1st January to 31st December 2017 will be sent to you in the next mail & you can register yourself for the course & book for your stay as well. Welcome to **Maitraghar**
